

MICRO 300

MARKISOLETTE

*Just
enjoy life!*

If you love originality and want to show it, the markisolette is for you. Love the Mediterranean and the playful, easy mood of the south? A markisolette conveys precisely that. Technically perfect and architecturally unique.

*"After all,
you only live once!"*

MARKISOLETTE

The MICRO 300 markisolette combines the **advantages of drop-arm and vertical awnings**: while the upper part always remains vertical, the lower part is angled outwards when extended. This creates pleasant shading of the interior while retaining a virtually unobstructed view to the outside. It still leaves room for window boxes and the plants enjoy shade too.

Why get up? Lewens offers you even greater convenience with the following **additional features** for your MICRO 300:

Options

- ▶ **Radio remote control**
- ▶ **Automatic weather monitoring**

The elegant **front profile** closes the cassette when retracted.

The **deflector roll** guides the awning fabric and maintains uniform fabric tension.

Cassette

The compact dimensions and slimline design of the cassette lend elegance to any façade. It fits snugly against the wall, creating a harmonious transition to the house façade.

Drop arms

High-quality pneumatic springs ensure that the awning fabric is perfectly tensioned in any extended position.

SYSTEM

The MICRO 300 is supplied as standard with motor drive.

If you prefer a crank drive instead (reduced price), you can choose either external or internal operation (with crank handle).
